

Teamwork

TWO groups of VIC members spent two days at Burnley FC in the Community's Whitehough Outdoor Education Centre in Barley, Pendle.

The team building days saw members climbing a Jacob's Ladder, taking a leap of faith, scaling a zig-zag beam 'in the sky', enjoying archery and navigating a route around the surrounding area.

Many conquered situations they never thought they could. Scaling heights they feared at first and setting themselves personal challenges and achieving them.

More importantly, they learnt to rely on each other to accomplish the tasks that had been set.

Operations Manager Bob Elliott said: "We have had a few team building days over the years and these two were among the best.

"The level of working together, of supporting each other, of being there when the person needed encouragement was incredible.

"Every member who took part should be proud of what they achieved."

A big thank you to Naomi Greene, Health and Wellbeing Officer at Burnley FC in the Community and the instructors from Outdoor Elements.
